

*...engineering in harmony with ecology*

## About SENG

*The Sustainable Engineering Society (SENG) is a technical society of Engineers Australia. It is also affiliated with Engineers Australia's College of Environmental Engineering.*

*Established in 1994, SENG strives to provide national focus and leadership to more than 1000 engineering and sustainability professionals.*

*Membership is open to anyone with an interest in and a desire to contribute to the advancement of environmental and sustainability issues.*

*As a SENG member you will have access to local and intra-state technical sessions, seminars and conferences, along with the latest technical research, guidelines and user manuals.*

*In addition to regular newsletters and industry updates, SENG members will also receive a free yearly subscription to our partner publication, WME Magazine.*

## The Sustainable Engineering Society

*Sustainability is the  
responsibility of  
everyone in society,  
and is one of the most  
critical challenges  
of our time.*

## Our Mission

The Sustainable Engineering Society (SENG) is committed to providing strong leadership and a national focus for the advancement of sustainable practices in the natural and built environment. We strive to provide outstanding technical and professional development support for our members.

## Membership

SENG members are united by a common goal; a shared passion for the environment and sustainability. SENNG is a dynamic, inclusive industry association that welcomes members from a diverse range of professional backgrounds.

Many SENNG members work with water, energy, waste, planning, climate change, social and cultural heritage, transport, education, resource efficiency and buildings.

We rely on the active support and involvement of our members to develop and deliver innovative events, research, publications and awards.

## Benefits

Some of the benefits of SENNG membership include;

- Access to local SENNG chapter technical sessions, seminars and conferences (up to a dozen per year).
- Invitations to national networking events, seminars and training. *Members receive a discount.*
- A free yearly subscription to WME Magazine (11 editions published from Feb to Dec) valued at \$189.
- Regular newsletters and industry updates.
- Free access to regularly updated industry guidelines, academic research, user manuals, student initiatives, awards, prizes and relevant government submissions.

## Engineering Change

SENG is actively involved in influencing and shaping Australian government regulations, legislation and policy. We also work hard to advocate for change within the wider community, aligning with key policies developed by Engineers Australia.
