

The Sustainable Engineering Society

...engineering in harmony with ecology

Presents:

UNDERSTANDING THE NEW STANDARDS ISO 14001:2015 - Environmental Management Systems & ISO 45001:2016? - Work Health & Safety Management System

Tuesday 15 April 2014

Time: 5:30pm for 6:00pm start

Venue:

Hawken Auditorium, Engineering House
447 Upper Edward St, Brisbane

Cost:

Members \$15
Non Members \$30
Students \$10

Please register to assist catering

PLEASE NOTE: Booking online is recommended. Only Credit Card payments

Speaker:

Wayne Hickey FIEAust CPEng Eng Exec CEnvP RPEQ

Jabiru Management Consultancy

Wayne has over 30 years' experience undertaking civil construction and environmental project management for a wide variety of enterprises. During that time he has also been responsible for designing, implementing and certifying Quality, Environmental, WHS and Risk Management Systems to Australian and International Standards. Initially certifying environmental management systems to BS7750 in the UK, Korea and Australia, Wayne has more recently been developing systems to ISO 9001; ISO 14001, ISO 3100 and AS 4801. Besides civil and environmental project management, Wayne currently certifies management systems for the BSI Group.

The world's most popular environmental management system standard, ISO 14001 is being amended and the new changes are programmed for release next year! By 2016 a new ISO 45001 Occupational Health and Safety Management System standard should also be available.

The presentation will address:

- The brief background to ISO 14001 and how it has evolved over many years into the standard that we see and implement today
- What is expected to change in 2015 when the new standard revision will be published
- An outline of Annex SL – the new top level management structure that we will see introduced in the revised ISO 14001 standard – what it is and how it will effect the implementation of a management system
- What the revised changes are likely to mean for your organization
- And finally, some guidance on revision and transition timings and where you can get help

Based on BS OHSAS 18001, the new ISO 45001 will support new areas of management systems to ensure better compatibility and systems governance, making the implementation within an organization a lot smoother. Once published, the standard will apply to any organization wishing to:

- Establish and implement an internationally recognized occupational health and safety management system to reduce or minimize risks to personnel and other relevant parties
- Maintain and constantly improve their health and safety performance
- Keep all operations in line with their stated health and safety policies to an internationally recognised standard.

Drinks and Networking

Please join us for a few drinks and light supper after the presentation.
The presentation will count as one hour towards your CPD.

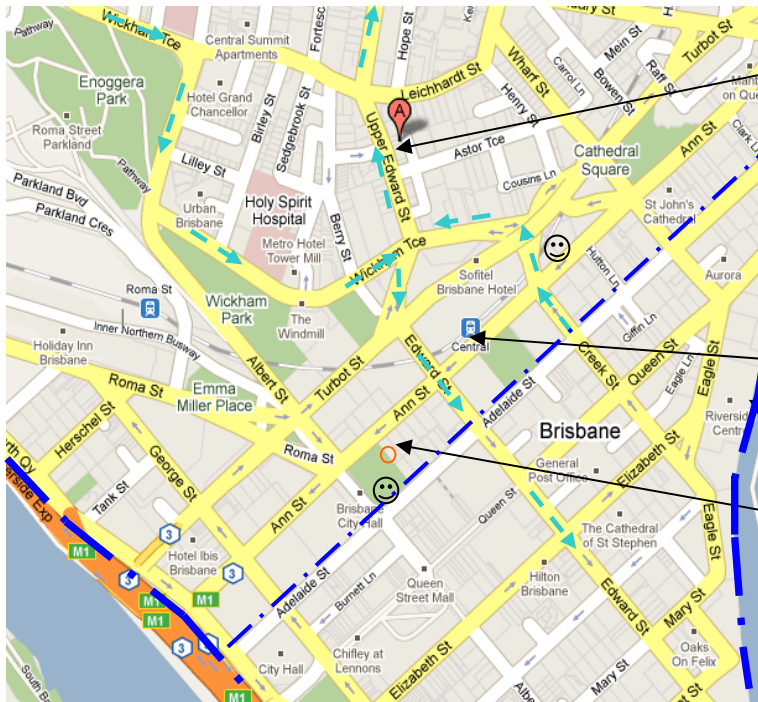

Drinks and Networking

Please join us for a few drinks and light supper after the presentation.

- For catering purposes **please register by 5pm on Friday 11 April 2014.**
- Register on-line at the [QLD Division Events Website](#)
- Please telephone Qld Division for any registration queries (07) 3832 3749

The presentation will count as one hour towards your EA CPD.

SEng encourages you to travel by public transport.

Engineering House

447 Upper Edward St

Spring Hill Loop bus
every 10 minutes until 6pm

Pedestrian - Cycle way

Central Train Station

Citycat

Transport Information Centre

CityCycle station

For more information go to <http://www.translink.com.au/> or visit the **Transport Information Centre** at King George Square station, Ann Street Concourse.

Join SEng to take advantage of the lower registration costs.

Annual membership costs to join the SENG are provided below:

Engineers Australia Members (incl GST)

General - \$71.50

Student - FREE

Retired - \$27.50

Non Engineers Australia Members (incl GST)

General - \$93.50

Student - FREE

Retired - \$38.50
