

The Sustainable Engineering Society

...engineering in harmony with ecology

The 2018 Annual Environmental Student Evening

Proudly hosted and co-sponsored by Griffith University

Date:

Wednesday 17 October 2018

Venue:

Eco Centre
Griffith University
Nathan Campus
170 Kessels Rd

Time:

5:30pm for **6:00pm start**

Cost:

free

Programme:

5:30 pm: Registrations

6:00 pm: Welcome and Introduction

6:15 pm: Presentations

7:30 pm: Refreshments, Networking and Judges Deliberation

8:00 pm: Presentation of Awards

8:30pm: Close

The 19th Annual Queensland Environmental Student Award Night will be hosted by the Griffith University and held at the EcoCentre on **Wednesday 17th October 2018**.

The annual student awards night allows Environmental Engineering and Science undergraduate students from Queensland universities to feature their thesis and project work to an audience of industry professionals and fellow students.

The event also allows a demonstration of the directions in current environmental research and shows the diversity and quality of thesis studies from all over Queensland.

Final year environmental engineering and science students from universities in Queensland are invited to attend and present their research or project work.

Why attend?

- Meet engineering undergraduates with an active interest in environmental and sustainable outcomes who will be entering the workforce in the next year or two.
- Promote your organisation and possibly gain a quality new staff member or work experience student.
- Hear about current environmental engineering research underway in Queensland universities.
- Network with your industry colleagues and gain CPD time.

Drinks and Networking – Please join us for refreshments after the presentations.
