AGENDA

6:00 pm

SSEE Qld AGM

6:15 pm

Wild Rivers seminar

The Queensland Parliament passed the Wild River Act in October 2005 (Wild Rivers Act 2005). The purpose of this Act is to preserve the natural values of rivers that have not been significantly affected by development – that is, rivers that have all, or almost all, of their natural values intact.

What is a wild river and why do we need them?

With an entertaining and sometimes confronting view from his kayak over 5,000km, Steve Posselt will describe what has happened with our sometimes confused view of "improvements" to river systems.

Scott Buchanan from DERM will provide a Government perspective of Wild Rivers Legislation, its history and purpose, key milestones to date, plus current a future challenges.

The presentation will be followed by discussion where comments and questions from attendees will be welcomed.

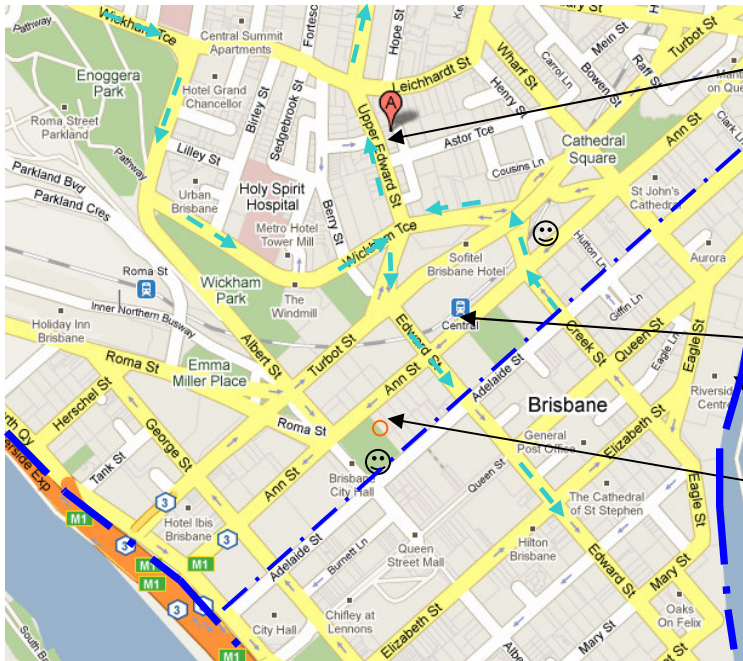

Drinks and Networking
