

Brisbane -

Do the bloody Maths!

This movie about the strengthening climate movement is going global. Watch and witness the power of the growing climate movement that is now effectively challenging the global influence of the fossil fuel industry on government policy!

WHERE: Rm. 411, Block Z

QUT Garden's Point Campus

WHEN: Friday, May 17th 5:30 – 7pm

This film highlights the real dangers we face from global warming caused by the continued burning of fossil fuels.

Here is your opportunity to see Bill McKibben, founder of 350.org in action throughout the USA, and hear about his upcoming "Do the Maths" live events here in Australia (Sydney, Canberra, Melbourne and Brisbane) in June.

You will be inspired.

The event will be hosted by QUT, supported by the Sustainable Engineering Society of Engineers Australia (SENG), ATA, QCC, ACF, AGDF, FOSEQ, Greenpeace, and BZE.

QUT Professor David Hood AM will introduce the movie and mediate discussions afterward. David is an Al Gore trained Climate Reality presenter, was Engineers Australia National President in 2012, and is an inspiring advocate for action by governments, business and the community on climate change and sustainability.

The screening will promote Bill's upcoming visit to Brisbane on June 9th.
